

METHODS OF RECEIVING PSYCHIATRIC HELP

PSYCHIATRY ON DISPLAY

One of the interesting displays in the Support Exhibit (see article on page 1) pertains to the Organization's Psychiatric Program.

The sketches on these two pages illustrate several situations which may be associated with psychiatric difficulties, the channels through which help may be obtained, and the treatment methods and programs available. A program of early recognition and treatment of these problems is, of course, of vital interest to the Organization and the individuals concerned.
